

# Alison Beaumont Marriage Celebrant

---

Your wedding day is something you have dreamed of, this is the day you are committing yourself to the person you love, and you want everything to be perfect, special and unique.

You may want a casual and relaxed ceremony or a more formal and traditional one, a glitzy and glamorous or maybe fun and funky.

No matter what you choose, we will work together to ensure your wedding day is filled with love and happiness to remember all of your life.

I have organised many wonderful events over the years and I am happy to help with all aspects of the day.

There are many beautiful intimate locations for a wedding in our area, but if you have your special "place" I am always happy to travel.

I love being a celebrant, after spending time with the couple, planning the ceremony, then on the day standing beside the groom as he watches his beautiful bride walk towards him is a miracle and I always get a lump in my throat.

I am proud to say..... I'm in the business of love.
